

ALLCapture™ 3.0

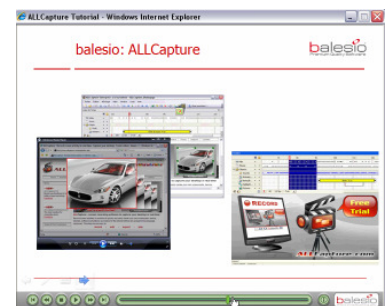

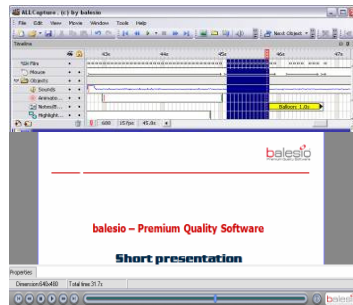

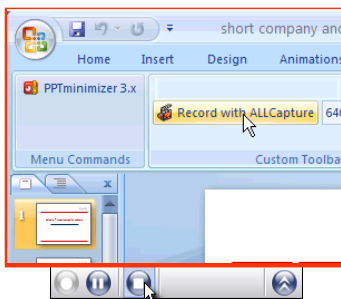

ALLCapture Enterprise - new generation of video recording

- NEW PowerPoint plug-in to produce flash presentations -

Within only two years, balesio's ALLCapture has grown to be one of the fastest selling full-motion screen recorders in the market. NOW there is a new feature !!!

Convert your PowerPoint presentation into a flash video in **3** easy steps:

1 USE PowerPoint plug-in

2 EDIT presentation

3 EXPORT as flash & PUBLISH your video

ALLCapture offers you full flexibility when it comes to your flash video presentation. You have full control over how long each slide will be displayed in the flash film. You can record and re-record voice over during or after video capture from microphones or recordings. That means, you can change and amend your flash presentation as many times as you want.

ALLCapture has many more benefits. You can also use it to record any activity on your screen, such as web videos, computer games, business web conferences and even more private video camera streams.

A free trial version is available at www.ALLCapture.com/eng/download.php

For a full list of editing features, video exporting formats and system requirements, please consult our webpage: www.ALLCapture.com

ALLCapture 3.0 Enterprise: only USD 289 / GBP 199 net (single user license).

Contact **Jay Green** for further information, queries or full evaluation versions (NFR).
