Release date : immediate

New Waterproof Connector System offers Low Cost and Flexible Wiring Option

Engelking is now able to offer a new solution to internal wiring in situations where there is a demand for an in-line waterproof connection. This connector system can be used in a variety of applications such as external automobile mirrors where a maximum on environmental protection is required.

Intended for use with an insulation diameter of up to 1.7mm, the crimp contacts are able to carry currents of up to 3A in 2, 3 or 5-pole versions.

The plugs and receptacles are sealed to grade 4 and can also be ordered pre-wired or with contacts for automatic machines.
