

Solar PV Performance Review

Location: Genesis Way, Healing, Grimsby, North East Lincolnshire
DN37 9TL

System details:	
System size: 185kWp	
System distribution: SE: 135kW / SW: 50kW	
Inverters: 3 x Delta M50A & Delta 1 x M20A	
Panel: 740 x FuturaSun FU250P	

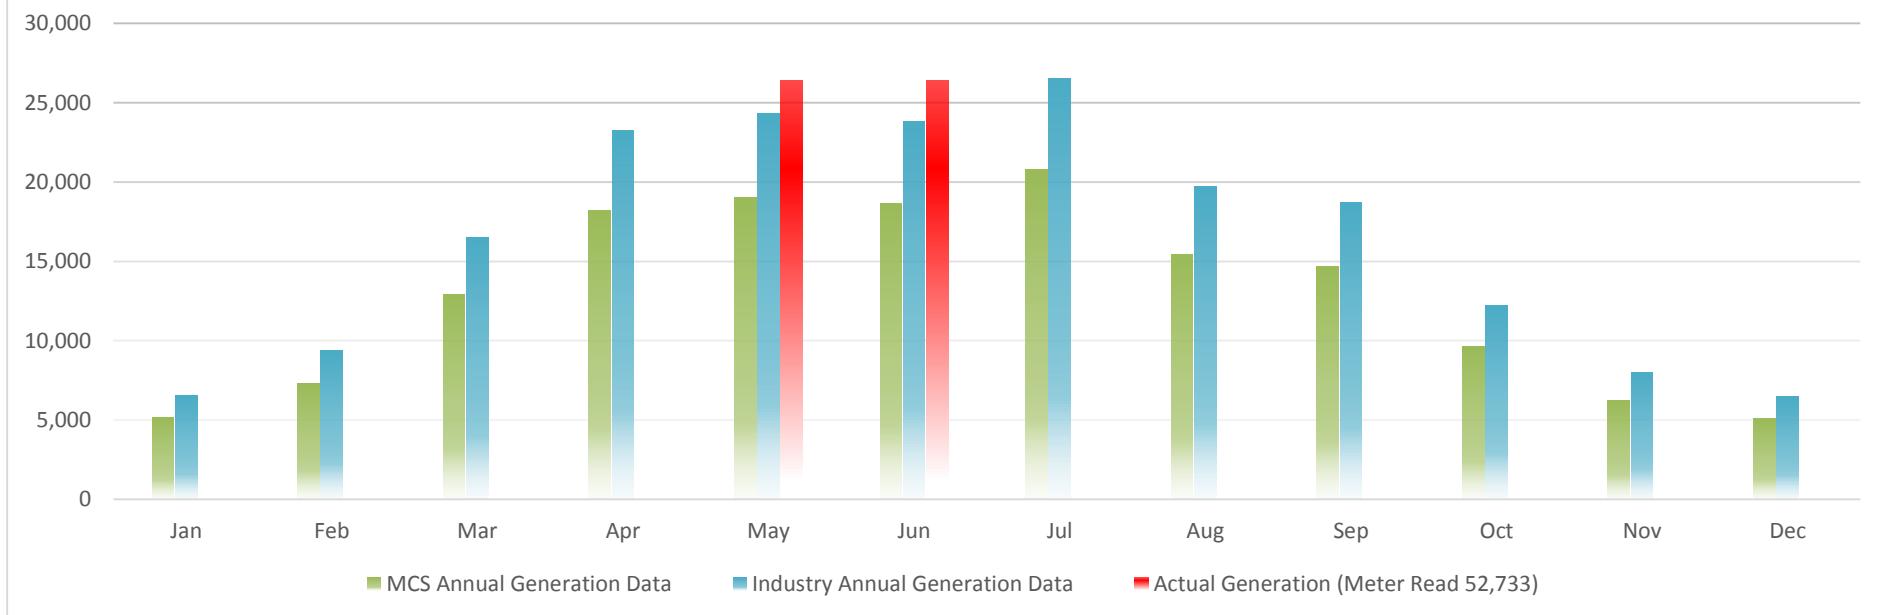

Month	Annual Generation Percentage	MCS Data		Industry Data		Actual Data	Over Performance Figures			
		kWh/kWp	Predicted Annual Generation	kWh/kWp2	Annual Generation		Over Performance on MCS (kWh)	Over Performance on MCS (%)	Over Performance Industry Data (kWh)	Over Performance Industry Data (%)

Solar PV Performance Review

GENERATION DATA

Conclusions:

The solar PV system at Albert Darnell is currently over performing operational predictions by approx. **10%** on industry data and **39%** on Micro-Generation Certification Scheme data. Our industry data is based on a number of commercial installations which are monitored monthly.
