

## David Knight leaves BMW Motorrad Motorsport

19 June 2009 07:13

Munich: With immediate effect, David Knight and the off-road team of BMW Motorrad Motorsport will be parting company. The two-times World Enduro Championship winner and winner of the US Grand National Cross Country only joined the BMW Motorrad Team Offroad at the beginning of the 2009 season. The move during the current enduro racing season is by mutual agreement.

Before the start of the racing season David Knight completed several tests on the G 450 X racing machine. However, during the season it has become apparent that rider and racing bike do not harmonise well enough to be able to achieve top placements within this highly competitive environment. For this reason, David Knight and BMW Motorrad Motorsport have decided to end their collaboration in good and fair manner.
