

SPECIAL EVENT on the 14th of MARCH

EFC2012 Matchmaking Event

Biomass to Business Talks

»Improve your business success by increasing your contacts«

At the Energy Farming Congress on the afternoon of 14th March, at the same time that the presentations are being given, you can take part in bilateral business to business (B2B) meetings held under the framework of the Interreg project »Sustainable Agribusiness and Life Sciences (Duurzame Agro-Business & Life Sciences)«.

This matchmaking event offers the possibility of making new contacts and meeting bioenergy experts and people from research institutes.

Why not take the opportunity to network with successful technology enterprises and to exchange know-how. You can discuss the following in face-to-face meetings:

- Business cooperation and contacts
- New technologies and innovative developments
- Research and know-how transfers
- Many other topics

Register online (www.B2Match.EU/EnergyFarming2012) and enter your company profile.

In your company profile, you can list which types of technological products and specialist knowledge you offer and the type of cooperation you are looking for.

Specify which subjects you would like to discuss with potential partners

All profiles will be available online and can be accessed for booking by all Business Talks participants. In this way, it will be clear before the event who you will be meeting, when you will meet them, and who would like to speak to you.

Why take part in the Biomass Business Talks?

- Present, discuss and develop new project ideas
- Meet potential partners for you company
- Discover new export opportunities
- Develop national and international contacts
- Obtain an overview of technological trends and market perspectives
