

Lantech LGS-2624C

20 10/100/1000T + 4 100/1000M SFP Combo + 2 100/1000M SFP L2 Plus Managed Switch

Advanced L2 + SNMP Management

Supports IPv4 & IPv6, MSTP, SSH/SSL, TACAS+, ACLs

IGMP v3 and Proxy, MVR

IEEE 802.3az for Energy Efficient Ethernet Task Force

DNV Type Approved for Ships, Craft and Off-shore Platforms

Lantech LGS-2624C is a 20-port 10/100/1000 Base-TX + 6 100 /1000M SFP L2 managed switches which supports full SNMP features, including QoS for 4 queues, 801.q VLAN, IPv6, IGMP snooping and query mode as well as SNTP and SMTP.

The switch features advanced security function including SSH, SSL, RADIUS and TACACS+ authentication, PVE, ACLs as well as supports IP Source Guard to anti-fake DHCP server or illegal IP address to access the network.

With advanced SNMP and security function, LGS-2624C is the best switch to connect with IP Camera, Setup box, VoIP phone / router, Wireless Equipments for MTU, Transportation or Surveillance applications.

Lantech DNV-Type Approval LGS-2624C-DNV model meets with the most critical test criteria in DNV Type test directives consisting of MED (Marine Equipment Directive), EMC (Electromagnetic Compatibility Directive) and LVD (Low Voltage Directive) in which vibration, high voltage, compass safe distance, salt mist tests, humidity etc. are conducted to ensure the switch sustaining the harsh on-board environments often founded in Ships, Crafts and Offshore platforms.
