### Right Angled PC Board Mounting Miniature Pushbutton Switch

Engelking announces its new ITW Series 100 Switch. This is a low-cost right angle miniature pushbutton switch for printed circuit board mount. The Series 100 features momentary or maintained action, single or double pole, PCB terminals and silver contacts. A wide variety of keycap styles and colours, including brushed metal and chrome, are available.

The Series 100 switch is ideal for high-volume, low-cost electrical applications, including consumer electronics, telecom/datacom, test and measurement, audio and medical applications.

Able to handle just under 1A of current, upto 800mA at 30V DC, this range also features non-shorting contacts, low operating force, low initial contact resistance and full travel of 3.5mm.

More information on this and other switch products is available from [www.itw-switches.de](http://www.itw-switches.de)
