### Bulgin Introduces New Range of IP67 Equipment Enclosures

Under the heading, '*Frozen Winters! Torrential Springs! Blistering Summers! Dusty Autumns!*' Bulgin has introduced a range of new registered design enclosures which are IP67 rated, dust and waterproof for short-term submersion to 1m depth.

Two materials are available to suit differing environmental requirements Polycarbonate - UL94-V0 rated or ABS - UL94-HB rated and with threaded knock-outs and premoulded areas that can be pushed out for use with M20 size cable glands, corrosion resistant captive lid screws standard on all lids these housings are available with optional 22mm holes, suitable for standard switches and indicators.

PCB mounting posts and slots for PCB are provided for the user as standard, reducing the amount of work required to assemble units.

They are available in a wide range of colors including transparent top covers available in clear and smoke gray.

To complete the range, accessories such as wall mounting brackets, combifoot - TS32 & TS35 din rail mounting brackets and M20 cable glands for use in knock-outs are additionally available.
