Jumper-Switch as Direct Replacement for Conventional Jumpers

The ERG series jumper switches are designed with a 2,5mm pitch offering high quality positive acting switching on PCB's. Their design is such that they can be used as a direct drop-in replacement for conventional jumpers adding extra convenience to the user.

The setting is mechanically secured and they are available from 1 thru 16 on/off, changeover and center-off contacts. Also, ganged pairs of contacts are available as an option.
