

Press Release 06-2011

---

## **Leading the Transformation at Mobile World Congress 2011**

*Real-time convergent billing enabling profitable growth in the centre of attention*

---

**Paderborn (Germany), 8 February 2011: In the middle of an all-time wave of transformation, the mobile ecosystem experiences business models adapting to new levels and players emerging. The lives of mobile customers improve where technology evolves and perceptions shift. The centre of this transformation is leading into the Mobile Future. Orga Systems, #1 choice for real-time rating and charging, will be present at this year's Mobile World Congress, attracting thought leaders from around the world with its new products solving OPEX and CAPEX challenges while supporting their initiatives to improve customer centricity, time-to-market, scalability and performance.**

### **Convergent solutions for future-proof revenue channels**

Orga Systems' convergent charging and billing solutions improve customer centricity while at the same time solving OPEX and CAPEX challenges. Faster time-to-market, outstanding scalability and benchmark performance make OPSC Gold a future-proof solution, meeting operators' needs. Opening up new additional revenue streams, mobile money services enable differentiation at the same time.

Orga Systems' real-time based suite of world-class solutions for Communication, mFinance and Utility will be shown at the Mobile World Congress. Orga Systems will be present at the GSMA Mobile World Congress 2011 in Barcelona from 14-17 February 2011 in Hall 8, Booth B130.
