

- Press Release -

SCHNEIDER KREUZNACH as a service provider: Subcontract measurement on customer order

BAD KREUZNACH, 15 June 2010.

Schneider-Kreuznach maintains extensive measurement equipment in its R&D department, operated by specially trained and highly experienced personnel. So far the company has used this exclusively for developing its own products. It is now offering its development team's expertise to other manufacturers in the industry to enable them to test and assess their products. Thanks to its equipment, professional experience and the spectrum of possible tests, Schneider-Kreuznach offers conditions for subcontract measurement that are unique in many ways.

For many years now, Schneider-Kreuznach has successfully used measurement equipment developed in-house in its own processes. These devices have proven their worth in the tough conditions of day-to-day production. This has resulted in high-precision and reliable products, such as Schneider-Kreuznach lenses; they are used both in professional photography and cinema projection as well in a wide range of industrial applications. More information can be found on the website <http://www.schneiderkreuznach.com/measuring-engineering/>

Visitors of the OPTATEC in Frankfurt/Main can find out more about this new service from 15 to 18 June 2010 at booth E39 in hall 3.0, where the company will also be presenting its new products in the field of optical production.

About the Schneider Group:

The Schneider Group specializes in developing and producing high-performance photographic lenses, cinema projection lenses, as well as industrial optics and precision mechanics. The group comprises Jos. Schneider Optische Werke, founded in Bad Kreuznach in 1913, and its subsidiaries Pentacon (Dresden), Schneider Kreuznach Isco Division (Göttingen), Schneider-Optics (New York, Los Angeles), Schneider Bando (Seoul), Schneider Asia Pacific (Hong Kong) and Schneider Optical Technologies (Shenzhen). The company's main brand is "Schneider-Kreuznach". It has around 620 employees worldwide, with 330 based in its German headquarters. For years now the group has been a world market leader in the area of high-performance lenses.
