#### **About ICM:**

ICM AG is an internationally leading congress organiser that specialises in the field of recycling. With a total of four congresses each year, ICM covers major topics that impact the circular economy, primarily focusing on the recycling of electrical and electronic goods, end-of-life vehicles, and batteries. The congresses are held alternately in various countries of Europe, in North America, and in Asia.

ICM is a Swiss company which has organised conferences in Europe, North America and Asia since the year 2000. The company was founded by Jeanette Duttlinger. Her team consists of 15 employees who speak German, English, Spanish, French, Italian, Japanese and Chinese.
