

PRESS RELEASE

ISEC7 GROUP ANNOUNCES PARTNERSHIP WITH Q2CON

German mobile business specialist joins forces with Danish consulting expert to bring groundbreaking Mobility for SAP solution to the Scandinavian market.

HAMBURG/ GLOSTRUP, AUGUST 16, 2012

Today, leading German mobile business specialist, ISEC7 Group, has announced a strategic partnership with the Danish consultancy company, Q2con. Specialised in SAP business consulting, with a profound expertise in mobile SAP, Q2con will exclusively market the renowned ISEC7 Mobility for SAP solutions in Denmark, Norway, Sweden and Finland. Together, the partners aim to increase Scandinavian market awareness in ISEC7's groundbreaking solutions that mobilise all SAP data without the need of costly middleware.

ISEC7 CFO, Roger Dost comments, "We are thrilled to have such a renowned business consultancy firm specialising in mobile SAP take interest in our solution. This not only reinforces the confidence we hold in Mobility for SAP, but also extends possibilities for us in the Scandinavian market. We are looking forward to sharing our extensive industry knowledge with Q2con. Together we will enable Scandinavian businesses to mobilise their SAP data at reasonable cost."

Q2con CEO Simon Nielsen adds, "As a SAP business consulting specialist, we are always aware of both the key players and quality providers of mobile solutions in this area. With ISEC7's Mobility for SAP, we have the exciting opportunity to provide our clients with the best mobile solutions."

As a distinguished pioneer in the business mobility market, ISEC7 has developed a range of proven solutions. Mobility for SAP has been internationally recognised for its mobile access to SAP data. It is the leading SAP-certified solution to access and work SAP data from smartphones and tablets. The solution offers flexible customisation whilst remaining easy to implement. Compared to other SAP mobile solutions, Mobility for SAP is cost effective, as it requires no further middleware. In addition to Mobility for SAP, ISEC7 is also the developer of the multi-award winning all-inclusive MDM solution B*Nator.

ISEC7 Group is a global provider of service and software solutions in the field of mobility.

ABOUT ISEC7

ISEC7 Group is a global provider of service and software solutions in the field of mobility. The company was one of the first movers in mobilizing company and business processes. Today, ISEC7 counts several renowned companies as committed customers. The company continually invests in the evaluation and development of new technologies. The ISEC7 solutions, such as B*Nator and Mobility for SAP have proven to be groundbreaking in the mobility sector. B*Nator, a comprehensive globally applicable Mobile Device Management solution, has been presented the „Most Innovative Enterprise Application“ by BlackBerry. Mobility for SAP allows access to any SAP backend without additional middleware. ISEC7 was founded in Hamburg in 2003. The company operates globally with offices in Germany, USA, Switzerland, Spain and Brazil.

ABOUT Q2CON

Q2con is an independent and fast growing Danish consultancy company located in Glostrup, Denmark. It aims to support the full range of business processes needed for businesses to stay ahead. As a best of breed specialist, Q2con focuses primarily on SAP CRM, SAP media and mobility. The consultancy engages with strong, market leading best of breed vendors in order to support areas outside their own focus capabilities. Q2con takes responsibility in all phases of a customer project – from the initial phases of business consulting and analysing, to the point of the project going live, training, support, and continuous business improvement.
