

OSISKO AND FINANCIAL PARTNERS EXTEND BRIDGE FINANCING TO STORNOWAY TO SUPPORT STRATEGIC PROCESS

Montréal, June 11, 2019 – Osisko Gold Royalties Ltd (the “Company” or “Osisko”) (OR: TSX & NYSE - https://www.commodity-tv.net/c/search_adv/?v=299134) today announced that it has entered into a binding bridge financing term sheet whereby it will provide a senior-secured bridge credit facility (the “Bridge Facility”) to Stornoway Diamond Corporation (“Stornoway”) together with certain secured lenders and key stakeholders (collectively the “Bridge Lenders”). The Bridge Facility is being provided to Stornoway by the Bridge Lenders in order to support Stornoway during its strategic review process (the “Strategic Process”).

Sean Roosen, Chair and CEO of Osisko stated: “We are working closely with Stornoway, its financial partners, and the Gouvernement of Québec to ensure the long term viability of the Renard Mine for the benefit of all stakeholders during these challenging times in the diamond market.”

Osisko owns a senior-secured 9.6% diamond stream on Stornoway’s Renard diamond mine and will continue to receive deliveries under its stream agreement. Under the terms of the Bridge Facility, the buyers under the amended and restated purchase and sale agreement entered into on October 2, 2018 (the “Stream Agreement”), in proportion to their respective commitments, will advance an amount equivalent to the stream net proceeds payable under the Stream Agreement to Stornoway, up to an estimated amount of C\$5.9 million (C\$2.8 million attributable to Osisko). The Bridge Facility also provides that Diaquem, Inc. (“Diaquem”), an affiliate of Investissement Québec, has agreed to advance to Stornoway an amount of up to C\$11.7 million by way of access to the funds available in a senior loan reserve account maintained by Stornoway’s subsidiary, Stornoway Diamond (Canada) Inc. (“SDCI”). In addition, amounts equivalent to royalty payments to be made by SDCI to Diaquem under the existing royalty agreement, up to an estimated amount of C\$1.9 million, and to interest payments accruing under the senior loan agreement between SDCI and Diaquem (the “Senior Loan”), up to an estimated amount of C\$2.5 million, have agreed to be advanced by Diaquem.

The Bridge Facility will be secured by a first-ranking security interest over all present and after-acquired assets and property of the Stornoway and will accrue interest at a rate equal to 8.25% *per annum*.

Amounts owing under the Bridge Facility will become due and repayable in full upon the maturity date, being the earliest to occur of certain stated events, including (i) the completion of a restructuring or other material transaction pursuant to the Strategic Process or the sale of all or substantially all of the property, assets and undertakings of Stornoway, and (ii) September 16, 2019 (the maturity date being subject to 30-day extensions by unanimous consent of the Bridge Lenders).

Concurrently with the entering into of the Bridge Facility, Stornoway also entered into a binding term sheet with the holders of more than 75% of the outstanding principal amount of the convertible debentures, pursuant to which such holders have consented to postpone interest payments on the convertible debentures from June 30 to December 31, 2019. Stornoway also obtained a waiver from Fonds de Solidarité des Travailleurs du Québec, Fonds Régional de Solidarité F.T.Q. Nord-du-Québec, S.E.C. and Diaquem of the requirement to make interest payments under the *Convention de prêt* dated as of May 3, 2012 from May 1, 2019 until December 31, 2019, inclusively.

However, there can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Investors are cautioned that forward-looking statements are not guarantees of future performance. Osisko cannot assure investors that actual results will be consistent with these forward-looking statements and investors should not place undue reliance on forward-looking statements due to the inherent uncertainty therein.
