Automechanika Shanghai

MS Motorservice Asia Pacific displaying products for CO₂ reduction

Automechanika Shanghai is being held at the National Exhibition and Convention Center in Shanghai, China, from December 2 to 5, 2015.

Following last year's great success, MS Motorservice Asia Pacific Co. Ltd. is again participating at this year's event and will be exhibiting on stand D 42 in hall 2. The stand measures 120 square meters, twice the size of last year's.

"Automechanika Shanghai ranks as an important venue for cultivating contacts with Chinese wholesalers and workshop equippers. Also important, of course, is to establish new contacts on the Asian market. Last year it was evident that this was a great opportunity for us to demonstrate our capabilities as a foremost engine parts supplier on the Chinese aftermarket and this year we intend to re-emphasize this with a much bigger stand," comments Dennis Baumann, President der MS Motorservice Asia Pacific.

The Company's focal point at this year's event: components and assemblies for reducing CO₂ emissions. To this end, a broad range of the most modern low-friction pistons and plain bearings of the Kolbenschmidt brand will be on show. As to the Pierburg brand, this chiefly represents air/fuel supply and management and exhaust gas after-treatment. Pierburg is also displaying a variety of variable-delivery and electric oil, coolant and vacuum pumps alongside its exhaust gas valves and innovative secondary air pumps.

This year's Automechanika Shanghai is aiming for a record of around 100,000 visitors. It is considered to be Asia's biggest trade fair for suppliers of auto parts, workshop equipment, and service products. For the growing Chinese market it is an important platform for the aftermarket and workshop equipment.

About Motorservice

The Motorservice Group is the sales organization for the global aftermarket operations of KSPG AG (previously Kolbenschmidt Pierburg). It is a leading supplier of engine components for the independent parts market. Its brands include Kolbenschmidt, Pierburg, and TRW Engine Components. A lineup remarkable for its breadth and depth allows customers to source their engine parts from a single supplier. As problem solver for the trade and workshops, it also provides an extensive customer support package and engineering expertise as a subsidiary of a major auto-industry supplier. The Chinese subsidiary MS Motor Service Asia Pacific has a staff of over 40. Its products mainly include pistons, plain bearings, coolant and

fuel pumps, electric and mechanical valves, cylinder heads, filters, gaskets for the Asian markets.

About KSPG AG

The KSPG Group (Kolbenschmidt Pierburg), which represents the Mobility sector within the Rheinmetall Group, has annual sales of €2.45 billion (2014) and ranks among the 100 biggest auto-industry suppliers worldwide. Some 11,000 employees at around 40 production plants in Europe, the Americas, Japan, India and China develop and manufacture components, modules and assemblies for the drive systems of present and future vehicles. The Group has as many as eleven locations in the Chinese regions of Shanghai und Yantai from where both Chinese and international automotive OEMs are supplied.

This first-tier supplier, present on the international automotive markets, consists of three divisions: Hardparts, Mechatronics, and Aftermarket. Clustered under the Kolbenschmidt brand is KSPG's Hardparts division comprising car and commercial vehicle pistons, large-bore pistons, engine blocks, cylinder heads, and structural parts in aluminum. The division's business also includes other castings, plain bearings and continuous castings.

The Pierburg brand covers KSPG's Mechatronics division: modules and assemblies for emission control, solenoid valves, actuators and valve train systems, oil, water and vacuum pumps for cars, trucks and offroad vehicles.

Last but not least, the Aftermarket division under the Motorservice brand embraces the global aftermarket business in the Group's and third-party products in over 130 countries. As a foremost supplier of engine components Motorservice offers its customers from a single source an extensive lineup of engine parts.
