Avnet Memec - Silica recognized by NXP for 32-bit MCUs sales and growth performance

Avnet Memec - Silica maintains number one position for third consecutive year as the leading distributor for NXP's 32-bit microcontrollers

Poing, Germany, 17th December 2015 – Avnet Memec - Silica, an [Avnet](#), Inc. (NYSE: [AVT](#)) company, has been given the 'Sales and Growth Performance for 32-bit MCUs' award by NXP at the distributors technical conference in Berlin. This is the third consecutive year that Avnet Memec - Silica has held the number one distributor position for NXP.

"This award is a recognition for the work of everyone in the team. It underlines the strength and success of our long-term focus and strategy in delivering outstanding support for NXP MCU designs. To remain at the top for such a prolonged period demonstrates our commitment

to our suppliers as well as to our customers," said Mario Orlandi, President of Avnet Memec - Silica.

"For over three years now, Avnet Memec - Silica has generated and won the highest number of projects for NXP in the 32-bit MCU space," said Dr. Mohamed Chemloul, VP Customer Application Support at NXP Semiconductors. "The presentation of this award is in recognition for their aptitude and performance, as well as their willingness to go the extra mile to ensure our mutual success."
