

A QUESTION OF ADJUSTMENT!

WUNDERLICH WINDSHIELD ADJUSTMENT »VARIO« FOR THE BMW SCOOTER C 400 GT AND C 400 X

The comfortable Wunderlich windshield adjustment »VARIO« has more than proven itself with the endurance riders who travel the globe on large BMW GS machines. It not only allows the company's own »MARATHON« windshield to be adjusted to all possible requirements in the twinkling of an eye.

It is therefore only logical that the specialists for BMW motorcycle accessories in Graftschaff have now turned their attention to scooters, even though they are almost exclusively in the urban world. The wind and weather protection play an essential role especially here. So, it was only consequent to develop the »VARIO« windshield adjuster for the C 400 X and C 400 GT scooters from BMW and to include it in the large product range.

With the »VARIO« screen adjuster, which by the way is suitable for both Wunderlich's »MARATHON« windshield and the original windshield from BMW, the height of the windshield can be continuously adjusted upwards by up to 60 mm from the standard basic setting - this is the position of the original windshield - and locked in any desired position. With the height of the upper edge of the windshield, the position of the break-off edge can be individually varied, and the desired laminar flow can be positively influenced.

Also, typically Wunderlich: One thinks practically and user-friendly! The adjustment range is generously dimensioned, so that, for example, even in a two-man ride, if the angle of the windshield changes, the optimum adjustment in height can be achieved in a few simple steps. The knurled wheel is ergonomically positioned for easy adjustment, so that the desired setting can be quickly adjusted on the road at any time. Even with gloves.

The solid, well thought-out mechanism is precisely made of stainless steel and powder-coated in black. It features a precise, smooth slide guide. This guarantees that the personal setting can be found for every rider!

It can be mounted with minimal effort on existing fixed points on the scooter. The price for the extra comfort is € 99.90*, including 5 years warranty!

Item-no.:

25371-000 - Windshield adjustment »VARIO« (€ 99.90*)
