

## Press release

### **Superseal – A new, compact assortment of plug housings**

Practically sized assortment is the ideal supplement to the existing product range

The new, practical supplement to the existing range of plug housings is available immediately. The compact assortment box 54290050 available from the Herth+Buss Elparts product range contains a selection of plug housings with the matching crimp connectors and sealing/protection plugs.

The plug housing sets from the Superseal series were developed to satisfy more stringent requirements with regard to water-tightness and reliability. The Superseal 1.5 series complies with the regulations of IEC 529, the standard DIN/ISO 40050 and protection rating IP67, and is therefore suitable for use in the automobile industry, agriculture and the mechanical engineering industry. This system is also suitable for use on sensors. The 1- to 4-pin plug housings contained in the product range are resistant to ozone, salts, petrol, diesel, brake fluid and engine oil. As a result, the assortment addresses the growing demands of the automotive industry, agriculture and sensor systems.
