

News against the heat !

Heat-Shield-Products in highest quality and assortment.

The TurboZentrum Berlin expanded his range of heat protection products shortly. from now on is a great assortment of screens (self adhesive), wraps, turbo-shields, tubes, hoses and more and more..

Especially proud are the berlin tuners on the Titan-Series, which contains different wraps up to a heat resistant of 1400°C and turbo-shields. although on the Gold-Series of the self adhesive screens, which puttes all knowen products in the cool shadow. special thin wraps for manifolds, and ready packages for batteries, starters and induction pipes makes the usual universal deliver-programm complete. A very good product are the stainless steel cabe clips which are the finest way to make exhaust wraps fitting.

A special offer are 15% discounts on all heat protecting products until the temperatures in berlin dont fall under 30°C for a longer time !

best regards,
TurboZentrum Berlin
