

TAIL SECTION. REDUCED TO THE MAXIMUM.

WUNDERLICH'S SLIM TAIL SECTION FOR THE BMW F 750 GS, F 850 GS AND ADVENTURE

The developers at Wunderlich have concocted a perfect completion for the BMW F 750/850 GS and F 850 GS Adventure!

The tails of the F 750/850 GS and the Adventure look fairly bulky with their protruding licence plate and the DIN reflector. The style of Wunderlich's tail section is totally different: it's visibly cast from a single mould for all those who want to make the tail of their vehicle slimmer and sportier while achieving a clearer view of the rear wheel!

Even while unpacking it, the eye is immediately drawn to the quality and obvious stability of the black anodised aluminium components. Cleanly designed drill holes and milling alongside precise edges testify to the careful mechanical finishing. What you have in front of you is a sophisticated conversion kit made of high-quality components that come with all the mounting parts you need. Our tail section mainly comprises the tail fairing on the underside and a discreetly designed licence plate.

Once mounted, the fitted and discreet fairing on the underside neatly closes the area beneath the seat. It protects the electronics and also reliably prevents the intrusion of water, spray and dirt. It also functions as a base for the slim, two-piece licence plate holder. This comes with discreet LED licence plate lighting and incorporates an inconspicuous, slim but widely designed reflector that is E-tested as is standard at Wunderlich.

The vertical placement and angle of the licence plate holder can be adjusted any way you like. The positioning of the drill holes matches the original licence plate holder so you can simply keep using the number plate on the new tail. The original tail light stays where it is. The original indicators can be combined with the conversion. Alternatively, Wunderlich offers the M-Pin indicator set with matching indicator bracket – Item-No.: 38983-002.

At Wunderlich we work with the well-known design principle of integrated and functional design. The same goes for this tail section, which has been manufactured by Wunderlich in Germany and therefore also comes with a 5 year warranty.

In short: less is more. And: easy mounting with a big effect!

Item-No.:

25857-002 - Wunderlich tail section with licence plate holder - black (€ 189,90**)

Optional:

38983-002 - Wunderlich „M-Pin“ indicator set for Wunderlich licence plate holder - black (€ 139,90**)

GOOD TO KNOW **TO OUR UK CUSTOMERS,**

Herewith, we would like to inform you that there is no need to worry about changes in relation to the fact that the United Kingdom has left the European Union.

You might be afraid of higher postage rates, custom fees or costs for additional services, but this won't happen during the transition time.

No changes neither higher postage rates, nor additional customs fees will apply.

Of course, the shipping time will remain the same and no delays for shipments are expected.

The transition time for the trade agreement between the UK and EU is estimated until the 31.12.2020. Until then everything stays the same.

Best wishes

Your team Wunderlich
