

WD'S MY PASSPORT® AIR™ OFFERS MAC USERS 1 TERABYTE OF STORAGE IN COMPACT, STYLISH PACKAGE

All-Aluminum Exterior, Super-Fast USB 3.0 and Security Features Make New Portable Hard Drive a Must-Have Mac Companion

IRVINE, Calif. – Nov. 13, 2013 – [WD®](#), a Western Digital (NASDAQ: WDC) company, today introduced the [My Passport® Air 1 TB](#), the only 1 TB portable hard drive for Mac users available in a stylishly thin all-aluminum enclosure. With 1 TB of storage capacity, customers will be able to take all their digital photos, music, video, on the go, and still have enough room to save all the new content they capture along the way. The ultra-slim design of My Passport Air complements the popular MacBook and MacBook Air form factors with an all-aluminium exterior to give enhanced protection to the drive and its contents. Seamless, out-of-the-box operation with Mac computers, including Time Machine®, provides additional reassurance that valuable digital content is protected.

The My Passport Air portable hard drive allows users to password protect access to their drive and hardware encrypts its contents, providing powerful protection of personal material. In addition, its USB 3.0 interface dramatically increases read/write speeds to help users manage, share, and enjoy digital content at a pace that is commensurate with the schedules of today's mobile consumer.

“WD's new My Passport Air 1 TB is the ultimate portable storage companion for Mac users,” explains Scott Steffens, general manager for WD's consumer storage solutions. “Its ultra-slim, high capacity design and advanced content security features make it a must have accessory for even the most discerning Mac aficionado.”
