New CEO at Z-LASER / FREIBURG

Freiburg, Germany – Z-LASER OPTOELEKTRONIK GMBH announces its new CEO Stefan Randak.

The German manufacturer of laser modules and laser projection systems, which is successful for more than 25 years, is being managed by a new CEO since September 2012.

Stefan Randak (49 years old), studied business administration and comes with a long national and international experience, which he acquired in several companies and leading positions, especially in the automotive industry. Mr. Zimmermann (63 years old), founder and leaving managing director will stay as exclusive owner and chairman. "With the nomination of Stefan Randak, the company becomes younger and will get a new structure, which is necessary because of the fast and successful growth of the company", says Mr. Zimmermann.

We wish Mr. Randak all the best for his responsible position!

About Z-LASER
