

## PRESS RELEASE

# ODP 333 from AURES: Soon available in white

Lisses - Fürstenfeldbruck - 26. December 2013. The new generation **ODP 333** receipt printer from the **AURES** Group has dressed itself up in white for New Year celebrations; the pure white lacquered surface, with mirrored reflections, enhances its contemporary look, in perfect harmony with the style of the latest generation of AURES EPOS terminals.

- The ODP 333 is very compact compared to traditional EPOS receipt printers. It features a cubic design with elegant black or white matt and gloss finish.
- It has a very ergonomic, splash-proof front receipt print-out, providing optimal protection against dust, crumbs and splashes in tough settings (kitchens, restaurants, cafés, baker's shops, etc.).
- The ODP 333's low energy consumption motherboard (*Energy Star certified*) switches it to standby mode as soon as it is no longer in use. This guarantees reduced electricity consumption *an average of 30% less* in line with new environmental standards for green technology.

The ODP 333 printer will be available in white from early 2014.

#### The ODP 333's plus points

- Green
- Energy STAR

- EPOS printer with contemporary cubic design (very ergonomic format)
- Low energy consumption motherboard (consumes less electricity)
- Triple interface: RS-232-C,, USB and Ethernet
- Front receipt print-out for a splash-proof, more watertight design, especially in tough café, hotel and restaurant settings.
- Print speed: 160 mm/sec
- Configuration utility
- All cables supplied
- Integrated buzzer
- Available in black or white

(See the full technical data sheet below)

#### **About the AURES Group**

Founded in 1989 and listed on Euronext since 1999, **AURES** manufactures electronic points of sale terminals and systems – together with related peripherals. This PC-based, open-system (*EPOS hardware*) is designed to provide management and till functions in specialist food and non-food stores, retail outlets, superstores or the catering and hospitality industry - and all other points of sale and service.

The **AURES Group** - which includes **AURES Technologies** and **J2 Retail Systems** - has global presence, with its head office in France, subsidiaries in Great Britain, Germany, Australia and the USA - and a network of distributors and resellers located in more than 50 other countries.

In 2013, the **AURES** Group represents over 50,000 deployed systems and sales in excess of €50 million.
