Linerless applications for
food · beverage ·
cosmetics · logistics

arti melt

increasing sustainable and ecological performance

Your key advantages

- leader in linerless adhesives
- 30% less material costs
- no release liner and matrix waste
- excellent cutting properties
- up to 60% more labels per reel
- more than 20 years of experience

«By incorporating artimelt linerless hot melt into our application chain, we were able to reduce waste and cleaning downtime significantly. That pays off.»
