Print Speeds:	2x6 (50.8x152.4 mm): 3.5 seconds 4x6 (101.6x152.4 mm): 7 seconds 6x8 (152.4x203.2 mm): 14 seconds 6x12 (152.4x304.8 mm): 21 seconds 6x24 (152.4x609.6 mm): 42 seconds
Print Head:	New print head with every cartridge change
Ink:	Single high capacity tri-colour dye ink cartridge (cyan, magenta, yellow, process black)
Colours:	16.7 million
Colour Matching:	ICC colour profiles for all Primera-supplied media. Ability to add custom ICC colour profiles for other media types.
Print/Media Width:	6" (152.4 mm)
Ink Level Warning:	Shows ink percentage in 10% increments in PrintHub status monitor
Indicator Lights:	Power, Ink, Paper, Error
Operating Systems:	Windows® 7/8x/10+ Mac OS X 10.9 - 10.14+
Data Interface:	USB 2.0
Photo Printing Software:	Primera SNAP™ included
Electrical Rating:	12 VDC, 5.0 A
Power Requirements:	100-240VAC, 50/60 Hz, 60 watts
Certifications:	UL, UL-C, CE, FCC Class A
Weight:	3.6 kg (8 lbs.)
Dimensions:	12.7"W x 8.3" H x 15" D
Included:	Impressa IP60 Photo Printer, power supply, media bin, output tray, and quick start guide. Software and complete user's manual can be found at dtm-print.eu
Manufacturer:	Primera Technology Inc.

Features

Fastest Printing. 4 x 6 (101.6 x 152.4 mm) photos print in just 7 seconds each, 2 x 6 (50.8 x 152.4 mm) photo strips print in just 3.5 seconds each. That's the fastest you'll get from any photo printer on the market. And unlike dye-sub printers, you can save time and money by printing single 2 x 6 (50.8 x 152.4 mm) photo strips. (Photo of stop watch at 7 seconds).

Low Cost Per Print. 4 x 6 (101.6 x 152.4 mm) photos, including ink and paper, are about 0.12 € each. A single 2 x 6 (50.8 x 152.4 mm) is just 0.06 € each.

Highest Print Resolution. Print up to 1200 x 4800 dpi. Similarly priced dye-sublimation printers print at 300 dpi, while far more expensive models are still just 600 dpi.

Lightweight and Easy to Transport. The entire printer weight is only 3.6 kg (8 lbs).

Widest Range of Substrates. Glossy, luster, re-positionable adhesive paper as well as postcard metallic and magnetic materials – lots of new choices that don't work on dye-sublimation printers and probably never will.

Most Versatile. Print any length without changing out supplies. This allows you to maximise your profits by offering larger print sizes. You can print photos with a length up to 24" (609.6 mm).

Easy to Load. It doesn't get much faster and easier than dropping in your photo paper roll and snapping in an ink cartridge. Gone are the days of messing with unruly ribbons.
