

FOR IMMEDIATE PUBLICATION

## **Canvys Releases 32-inch CP Series Model in HDTV Resolution**

**Canvys – Consultation, design, development and implementation of  
comprehensive visual technology solutions for health care, Original  
Equipment Manufacturers (OEMs) and digital signage applications**

**Donaueschingen – 2009-10-15.** Canvys – Visual Technology Solutions is expanding its large format displays in the CP series by adding a 32-inch monitor with full high definition resolution.

In addition to the monitors with 26 inch- to 52 inch- diagonals available to date, Canvys is now selling models with 32 inch- diagonals (PD-CP32AH) in HDTV resolution.

Canvys has designated them as ideal for use with digital signage applications, for example, when equipping exhibition and presentation rooms.

This compact display is available as a robust monitor and as an open frame to be built into existing spaces.

### **An overview of the entire CP series**

- 26 inch- (PD-CP26CM) / 1920 x 1200 / WUXGA
- 32 inch -(PD-CP32AU) / 1366 x 768 / WXGA
- 32 inch -(PD-CP32AH) / 1920 x 1080 / HDTV
- 42 inch -(PD-CP42AU) / 1920x1080 / HDTV
- 52 inch -(PD-CP52SS) / 1920 x 1080 / HDTV

## Highlights of the new 32-inch monitor and the CP series in general

### *Seal of quality:*

Monitors in the CP series are developed and produced in Germany. Canvys uses qualitatively premium components that ensure long-term durability.

### *Serial OSD interface:*

This interface lets the user control the monitor entirely. The devices can be easily integrated into a network. There is also the option of monitoring the background lighting and the device's temperature via remote control.

### *Full HD resolution:*

The new 32 inch -device with HDTV resolution offers exceptional overall image quality and is ideal for displaying high resolution content. Another impressive feature is that regardless of the viewing angle, the monitor's color and contrast does not change.

The excellent technical features of the basic device and the optional customer-specific adjustments by the solution provider Canvys make the CP series the first choice for many applications:

- Robust metal housing
- Integration of touch and safety screens
- Integration of PC and media player
- 24/7 operation and ability to use horizontally (mounting in table)
- Customer-specific designs (housing, color, stainless steel front)

The devices are currently available from Canvys. Technical details and prices can be obtained upon request.
