

## Clever shifting

### The individually adjustable Wunderlich gear shift lever »CLEVER LEVER« for the BMW F 750/850 GS

With its new gear shift lever »CLEVER LEVER«, Wunderlich, the No. 1 worldwide for high quality BMW motorcycle accessories, is launching a clever alternative to the gear shift lever on the F 850 and 750 GS, which is not adjustable. Its continuously variable length locking mechanism for an optimum adjustment and shifting gears becomes as smooth as butter thank's to its roller bearing-mounted innovative gear shift lever tip. The »CLEVER LEVER«, is reliably prevented from bending, which can even happen during a minor fall, due to a wear-free stainless steel folding mechanism.

The Wunderlich lever also features a special highlight: a gear changing adjusting mechanism, which permits long shift travel for comfortably gear shifting with large offroad boots as well as short shift travel for onroad use.

The extremely lightweight yet high-strength »CLEVER LEVER«, made of CNC-milled 7075 T6 aluminium is completely Made in Germany. It comes with a five-year guarantee for €119.90.

Optically & functionally a highlight:  
Adjustable gear shift lever on Wunderlich BMW F 750 GS

Application example: The »CLEVER LEVER« can not only be adjusted in the length but also offers a roller bearing for the highest comfort of shifting possible – Moreover, the lever is foldable up to 90 degrees to prevent itself against any damage.

complete your BMW.

## Press Release 24/2018

Fits perfect to the BMW F 750 GS ...

... also to the BMW F 850 GS

Maximum driving pleasure with the BMW F 750 GS (left) and with the BMW F 850 GS (right) in the offroad tracks ...

... and onroad, the »CLEVER LEVER« not only allows a smooth-shifting through the roller-mounted tip, but also reduces the friction between boots and gearshift lever to a minimum.
