

CETECOM earns Wi-Fi Alliance® accreditation to perform testing for Wi-Fi CERTIFIED™ ac with wave 2 features

Summary: The Wi-Fi Alliance® accredits CETECOM to perform certification testing for Wi-Fi CERTIFIED™ ac with wave 2 features. CETECOM's Silicon Valley laboratory in Milpitas, California is one of first laboratories globally to offer these testing services.

July 5, 2016 / Milpitas, Silicon Valley – CETECOM, the premiere wireless test and certification lab, is one of the first laboratories globally to earn the accreditation to perform certification testing for Wi-Fi CERTIFIED™ ac with wave 2 features.

The Wi-Fi Alliance announced on June 29, that it is expanding Wi-Fi CERTIFIED™ ac to include new features that provide a higher-performance Wi-Fi experience. New “wave 2” features enable Wi-Fi to more efficiently handle high-bandwidth applications from an increasing number of smartphones, tablets, TVs, and other consumer electronics devices simultaneously connected to Wi-Fi networks. Wi-Fi CERTIFIED™ ac delivers greater network capacity and multi-gigabit speeds to benefit consumers, service providers, and enterprises.

CETECOM's already operates Wi-Fi Alliance® certified laboratories and with this additional accreditation for the wave 2 features in the US, CETECOM enhances its position as the [premiere and leading service provider for Wi-Fi certification testing](#)", mentioned CETECOM CEO Wilfried Klassmann.

About CETECOM

CETECOM is renowned as an independent industry partner for telecommunication technologies. With over 400 employees worldwide, CETECOM offers a series of testing and certification services which cover various technologies. Besides the testing of familiar standards like GSM, WCDMA, LTE, CDMA, Bluetooth, Wi-Fi and NFC, CETECOM also performs a wide range of consulting and testing of mobile software applications, OTA, Antenna testing, SAR, EMC, field trials, acoustics, SmartCard and batteries. In addition, CETECOM supports new developments in the markets of "internet of things", especially for the domains of connected car and smart industry. CETECOM also participates in the development of global standards and test specifications.
