

PRESS RELEASE

AMS Technologies represents Industrial Current Transformer product line from Manutech Europe/Magnelab at PCIM 2012 in Nuremberg

Martinsried, April 27, 2012 – Aside from new products by the existing product lines AMS Technologies, a pan European solution provider for Power Technologies, will present the Industrial Current Transformer product line from Manutech Europe/Magnelab at this year's PCIM 2012 in Nuremberg on their booth 512 in hall 12.

Magnelab is a world leader in the design and manufacture of AC current transformers and home of the Split-Core current transducers. For over 40 years Magnelab has served many industries with a commitment to quality and service. Magnelab is currently owned by Manutech, based in Miami, Florida. Manutech has been designing and manufacturing all types of magnetic components for more than 20 years and employs 350 people in their offshore facility.

Applications and industrial sectors include:

- Laser and Plasma research
- EMC and EMI research
- Semiconductor gate switching
- Power system harmonics and transients

Learn what will be important for your power electronics at the PCIM booth of AMS Technologies 8-10 May Nuremberg Germany, Hall 12 Booth #512. PCIM is Europe's leading meeting-point for specialists in Power Electronics and its applications in Intelligent Motion and Power Quality.

The AMS Technologies team and our representatives look forward to your visit. Please visit our web page for more information www.amstechnologies.com

AMS Technologies – where technologies meet solutions

AMS Technologies is Europe's leading solution provider and distributor for Optical, Power and Thermal Management Technologies, with almost 30 years of experience to date and currently serving more than 1000 European customers. AMS Technologies has been delivering solutions into a variety of high-tech markets, including renewable energies, medical, defence & aerospace, telecom & datacom, research & scientific and various other industrial segments. Our customer base consists of Europe's largest leading technology corporations, a network of universities and research institutes as well as the most promising start-ups.

We thrive by working in a 'customer first' environment. Our pan-European customers are serviced from a network of local offices in Germany, the UK, France, Italy, Spain and Norway, with a focussed operations and logistics centre located in Munich, Germany.
