

## **MMM Group – World wide Activity**

MMM Group is represented by 19 subsidiaries and more than 100 agencies worldwide, active on all 5 continents. Since 1954, MMM has been established as one of the leading suppliers of health care systems. Export activities have been increased step by step to today's size and comprise a complete range of products and services involved in sterile processing and hot air technology. Being a decisive pioneer of quality and innovation, MMM can be found in many hospitals and laboratories of research, the pharmaceutical and the food industry, in more than 80 countries worldwide.

Customers all over the world, esteem MMM quality products that guarantee high reliability and a long life cycle as well as the MMM after sales service enjoying a good reputation of fast response times and individual services. Apart from sound project management and quality products, customers benefit from the intensive consulting including planning, determination of demand and capacity calculation. MMM also renders validation of all processes involved in sterile processing. Process validation is becoming more and more important to make sure, that the processing cycles generate a reproducible result and are documented according to legal requirements. Experience gained in the MMM home market are passed on to subsidiaries and agencies. This transfer of know how helps our partners worldwide to observe generally approved guidelines.

With great success, the medium-sized business organization pursues the aim to develop products and services that suit the world market, offering customized products to fit country-specific requirements. MMM has production sites in Germany and in the Czech Republic. MMM Group demonstrates their worldwide presence by participating in fairs and exhibitions such as Arab Health at Dubai or Hôpital Expo at Paris and many others around the world. In 2008, the subsidiary BMT s.r.o. has become a 100 % daughter of MMM Group, promoting even more the bonds of MMM Group to the markets of Eastern Europe.
