

## **Advantech Launches UTK-615 Compact All-in-One Kiosk for Enhanced Self-Service Applications**

**Germering, Germany, March 2021** – Advantech, a leading provider of intelligent computing solutions, is pleased to announce the launch of UTK-615, a modular self-service kiosk aimed at indoor self-ordering applications. Powered by a Rockchip ARM® Cortex™-A17 RK3288 processor that supports Android 8.1 OS, the UTK-615 kiosk delivers high-performance computing in a compact form factor. The system features a 15.6" touchscreen with projected capacitive touch control, as well as a QR code scanner, NFC reader. It supports versatile user scenarios. Built for 24/7 operation and to satisfy the diverse requirements of self-service applications, UTK-615 terminals can be customized and integrated with optional modules that extend the system functions. The innovative kiosk is also equipped with VESA mount that are compatible with diverse mount options (wall, tabletop, and floor stand) to ensure easy and flexible deployment in small or medium-size venues with limited installation space.

### **Easy Operation with P-CAP Touchscreen and LED Indicators**

Advantech's UTK-615 is built to provide a high-performance mobile self-service kiosk that can be employed in a wide range of indoor environments. To ensure easy operation and navigation, the UTK-615 kiosk features a 15.6" P-CAP touchscreen and colorful eye-catching LED indicators that help customers follow the self-service procedures.

### **Modularized Design Ensures Convenient Maintenance and Upgrades**

The UTK-615 kiosk is a modular system that can be flexibly configured and installed with different mount options according to specific usage requirements. The modular design allows the system to be easily maintained and upgraded to suit a range of service needs. Moreover, with the integration of optional extension modules, such as facial recognition and voice guidance modules, the system functionalities can be extended for diverse applications.

### **Enhanced Service with More Efficient Resource Allocation**

For business owners and managers, UTK-615 can improve the customer experience by enabling self-service applications. This minimizes customer wait times, increases order accuracy, and boosts service efficiency while reducing the human resources required to staff the venue. Furthermore, with the inclusion of Advantech's WISE-PaaS/DeviceOn device management software, the kiosks and peripherals can be remotely managed for more efficient operations.

### **Key Features**

- 15.6" touchscreen with P-CAP touch control
- Rockchip ARM® Cortex™-A17 RK3288 processor
- Compact, modular design for limited-space installations
- 0 ~ 40 °C/32 ~ 104 °F operating temperature range
- Integrated QR code scanner, NFC reader, and receipt printer
- Compatible with wall, tabletop, and floor stand mounting
- Supports Android 8.1 OS

Advantech's UTK-615AP mobile self-service kiosk that supports Android OS is ready for order, and UTK-615DP with Intel processor will be available soon.

### **About Advantech Service-IoT GmbH**

As a global player in intelligent IoT systems and embedded platforms, Advantech Service-IoT GmbH is part of Advantech Co., Ltd., founded in 1983 in Taiwan.

Advantech promotes IoT hardware and software solutions to drive IoT, Big Data, and Artificial Intelligence. It also supports business partners and customers in connecting industrial value chains. To help shape corporate ecosystems and accelerate the realization of industrial intelligence, Advantech leverages its ever-expanding networks of partners. Within the support, sales and marketing network, more than 8,600 Advantech employees worldwide are committed to rapid time-to-market services.

The trade name Advantech-DLoG, which was introduced in 2010, will continue to exist as a product brand after the name change. The brand name originated from the former DLoG GmbH, has now been renamed Advantech Service-IoT GmbH and has been fully integrated into the Advantech Group.

### **About Advantech**

Advantech's corporate vision is to enable an intelligent planet. The company is a global leader in the fields of IoT intelligent systems and embedded platforms. To embrace the trends of IoT, big data, and artificial intelligence, Advantech promotes IoT hardware and software solutions with the Edge Intelligence WISE-PaaS core to assist business partners and clients in connecting their industrial chains. Advantech is also working with business partners to co-create business ecosystems that accelerate the goal of industrial intelligence.
