World's NEW Super Wide Angle Movie Camera

capture your imagination

QBiC

MS-1

Features

Capture Your Imagination

Super Wide Angle, Bright Lens

Choose the angle from 185° / 165° / 135° to fit your creative style. F2.0 lens captures objects clearly.

Close up

Short throw lens lets you shoot objects closely up to 20mm distance. Objects are captured clearly even in backlight with QBiC's Wide Dynamic Range feature.

Movie

Full HD (1080P × 60fps/30fps)
HD (720p × 120fps/60fps)
WXGA 240fps

Photo

5M(185°)/3.5M(165°)/2M(135°), with additional features such as Self timer mode, Interval recording mode, and Burst mode (10 sheets).

Go Anywhere with QBiC MS-1!

WiFi

The dedicated "QBiC APP" allows you to easily connect QBiC MS-1 to your smartphone through WiFi. Use your smartphone to view the image, change settings, instantly upload images and videos to Facebook, Instagram or any other social media platform to share your awesome work!
