

# **LGS-2624C**

20 10/100/1000T + 4 100/1000M SFP Combo + 2 100/1000M SFP L2 Plus

#### **Managed Switch**

- Advanced L2 + SNMP Management
- Supports IPv4 & IPv6, MSTP, SSH/SSL, TACAS+, ACLs
- IGMP Query and Snooping, Proxy

## **OVERVIEW**

Lantech LGS-2624C is a 20-port 10/100/1000 Base-TX + 6 100 /1000M SFP L2 managed switches which supports full SNMP features, including QoS for 4 queues, 801.q VLAN, IPv6, IGMP snooping and query mode as well as SNTP and SMTP.

The switch features advanced security function including SSH, SSL, RADIUS and TACACS+ authentication, PVE, ACLs as

well as supports IP Source Guard to anti-fake DHCP server or illegal IP address to access the network.

With advanced SNMP and security function, LGS-2624C is the best switch to connect with IP Camera, Setup box, VoIP phone / router, Wireless Equipments for MTU, Transportation or Surveillance applications.

## **FEATURES & BENEFITS**

- IGMP v1/v2/v3 snooping, query and proxy
- Port Based VLAN, Tag VLAN, GVRP
- Voice VLAN
- Port Trunk with LACP
- TFTP Firmware Update and System Configure
- 9K Jumbo Frame support
- 8K MAC address table

- Support IPv4 & IPv6
- Quality of Service
- Port Mirror
- MSTP /Spanning Tree / Rapid Spanning Tree
- SNMP v1, 2c and 3 with support for traps
- Advanced Security: SSH/SSL,ACL, IP Source Guard, PVE, Port Security

#### **SPECIFICATION**

Hardware Specification			12.90W @ AC 220V
IEEE Standard	IEEE 802.3 10BASE-T Ethernet,		12.70W @ AC 240V
	IEEE 802.3u 100BASE-TX Fast Ethernet,		full-load
	IEEE 802.3ab 1000Base-T,		15.6W @ DC 12V
	IEEE 802.3z Gigabit Fiber,		21.6W @ AC 110V
	IEEE802.1p COS		22.80W @ AC 220V
	IEEE 802.3x Flow Control and Back-pressure		22.73W @ AC 240V
	IEEE802.1x RADIUS authentication	Case Dimension	442mm(W) x 170.3mm (D) x44mm (H)
	IEEE 802.1d Spanning Tree,	Operating Humidity	10%~90% (Non-condensing)
	IEEE 802.1w Rapid Spanning Tree,	Operating	Standard: 0°C~40°C
	IEEE 802.3ad Port trunk with LACP	Temperature	
	IEEE802.3az Energy Efficient Ethernet Task Force	EMI	CE, FCC Part 15 (CFR47) Class A
	IEEE802.1q VLAN Tagging	Warranty	2 years
	IEEE802.1ab Link Layer Discovery(LLDP)	Software Sp	ecification
		Management	SNMPv1v2v3/ Web/ Telnet/ CLI Management
MAC Address	8K Mac address table		
Jumbo packet	up to 9KB supported on Gigabit interfaces	Firmware update	-Web browser upgrade (HTTP/ HTTPs) and TFTP
Power Supply	100-240 VAC 50~60 Hz, internal , universal		-Upgrade through console port as well
Power	unload		-utility to deploy the switch firmware
Consumption	6.84W @ DC 12V	s-Flow	s-Flow is a modern standard-based network export
	11.52W @ AC 110V		protocol (RFC 3176) that addresses many of the

	challenges that network managers face today. By		Task Force. Automatically turns off power on
	embedding s-Flow technology into network switch		Gigabit Ethernet RJ-45 port when detecting link down
	delivers an "always-on" technology that operates with		or Idle of client. Active mode is resumed without loss
	wire-speed performance. Cost of implementation is		of any packets when the switch detects the link up
	driven down dramatically compared to traditional	Cable length	Adjusts the signal strength based on the cable length.
	network monitoring solutions using mirrored ports,	detection	Reduces the power consumption for cables shorter.
	*probes, and line tap technologies.	Spanning Tree	Support Spanning Tree Rapid Spanning Tree,
	(The function will be released at FW v1.10 and the		enabled by default Multiple Spanning Tree instances
	available schedule is August 2011*)		using 802.1s (MSTP)
UPnP	The UPnP (ISO/IEC 29341) architecture allows	Port Mirror	Supports TX/RX/Both packet mirror.
	device-to-device networking of personal computers,		(8 source port)
	networked home appliances, consumer electronics	IGMP	-Supports IGMP v1/v2/v3 snooping
	devices and wireless devices. It is a distributed, open		-IGMP querier is used to support a Layer 2 multicast
	architecture and zero configurations networking		domain of snooping switches in the absence of a
	protocol based on established standards such as the		multicast router.
	Internet Protocol Suite (TCP/IP), HTTP, XML, and		-Support IGMP Proxy
	SOAP. (The function will be released at FW v1.10		
	and the available schedule is September 2011*)		- MLD v1/v2 snooping : Deliver IPv6 multicast
Port Trunk	Support for IEEE 802.3ad Link Aggregation Control	BUOD	packets only to the required receivers
- Ort Hullk		DHCP	Relay of DHCP traffic to DHCP server in different
	Protocol (LACP)		VLAN. Works with DHCP Option 82
	-Up to 12 groups		DHCP Client/ DHCPv6 Client
	-Up to 8 ports per group	SNMP	SNMP version1, 2c and 3 with support for traps, and
VLAN	Support for up to 4K VLANs simultaneously (out of		SNMP version 3 user-based security model (USM)
	4096 VLAN IDs)	SMTP	Support SMTP Server and 6 e-mail accounts for
	· -Port-based VLAN		receiving event alert
	· -Tag-based VLAN	SNTP	SNTP to synchronize system clock in Internet
	· -MAC-based VLAN	LLDP	Traffic on a port can be mirrored to another port for
	Management VLAN	LLDI	
	· -Private VLAN Edge (PVE)		analysis with a network analyzer or RMON probe. Up
	-GVRP		to 8 source ports can be mirrored to single destination
Voice VLAN	Voice traffic is automatically assigned to a		port. A single session is supported.
V0100 V L/ (14	voice-specific VLAN and treated with appropriate	System Log	System log record and remote system log server
		Port Security	Locks MAC Addresses to ports, and limits the number
	levels of QoS		of learned MAC addresses
Quality of Service	- Support 8 hardware queues	IP security	Supports illegal IP address to access to specific port
	- Ingress policer; egress shaping and rate control; per		in the switch
	VLAN, per port and flow base		Support SSH/SSL
QoS Scheduling	Strict priority and 8,4,2,1 weight fair queue scheme	RADIUS /	IEEE802.1X: RADIUS authentication, authorization
	Queue assignment based on DSCP and class of	TACACS+	and accounting, MD5 hash, guest VLAN ,
	service (802.1p/ CoS)	171071001	
Class of Service	Port based; 802.1p VLAN priority based; IPv4/IPv6		single/multiple host mode and single/multiple
	precedence/ type of service (ToS) / DSCP based;		Sessions
	Differentiated Services (DiffServ); classification and		Supports IGMP-RADIUS based 802.1X
	re-marking ACLs, trusted QoS		Dynamic VLAN assignment
IPV6	Web/ SSL, Telnet/ SSH, ping, Simple Network Time		Supports RADIUS and TACACS+ authentication.
IF VO			Switch as a client
	Protocol (SNTP), Trivial File Transfer Protocol	Storm control	Broadcast, multicast, and unknown unicast
	(TFTP), SNMP, RADIUS, Syslog, DNS Client,	ACLs	Support for up to 4096 entries
	protocol-based VLANs		Drop or rate limitation based on source and
IPv4 and IPv6 dual	Coexistence of both protocol stacks to migration		destination MAC, VLAN ID or IP address, protocol,
stack			port, differentiated services code point (DSCP) / IP
Remote Monitoring	Embedded RMON software agent supports RMON		precedence, TCP/ UDP source and destination ports,
(RMON)	groups 1,2,3,9 (history, statistics, alarms, and events)		802.1p priority, Ethernet type, Internet Control
	for enhanced traffic management, monitoring and		Message Protocol (ICMP) packets, IGMP packets,
	analysis		
Dual Image	Dual image provides independent primary and		TCP flag
	ago promaco macpondon primary and		
	secondary OS files for backup while upgrading		
Energy Detect	secondary OS files for backup while upgrading  Compliant IEEE802.3az Energy Efficient Ethernet		*Future Release **Optional
