

ECOVIS KAPITAL

Strengthening Ecovis' Position in Turkey

Berlin, 12. January 2012 – Ecovis welcomes a new partner firm which complements its range of services offered in Turkey, now one of the fastest growing economies. The leading consulting firm for small and medium-sized enterprises in Germany has a worldwide network of partner offices in more than 40 countries.

Founded in 1997, ECOVIS KAPITAL is located in Istanbul, the business capital and financial centre of Turkey with more than 13 millions inhabitants. The firm consists of 16 staff members and is managed by Mr. Zeki Öcal. ECOVIS KAPITAL provides accounting and payroll, and thus complements the services offered by the existing Istanbul partner office ECOVIS Deger in the field of tax, audit and law.

Recently Turkey's economic growth rates have attained Chinese dimensions, and foreign investment in the country is rising. More and more small and medium enterprises from other European countries, particularly from Germany, are looking for business in Turkey with its industrial structure characterized by 99 % SMEs. Ecovis can now provide firms from abroad with the complete spectre of interdisciplinary services they are used to in their home countries.
