### Colored Metal Pushbuttons Combine Robustness with Exciting Design Possibilities

These new robust metal pushbutton switches for 16mm panel cutout offer an innovative solution to control panel design. The outer case is of turned stainless steel and the button is in brightly anodized aluminum.

A choice of attractive colors are available with possibility of special colors on request. A large range of various switching actions make this product useful in a wide range of applications.

Despite all these unique features and the high manufacturing quality, the pushbuttons are competitively priced opening new opportunities for inventive designers.
