

PRESS RELEASE

G-POWER reanimates the BMW 6-cylinder M54 engine. 306 hp und 360 Nm for the BMW 330i E46 and BMW Z4 3.0i

Ever dreamt of having the same performance in your 330i E46 like the awesome new „bi-turbo“ 6-cylinder from BMW? Stop dreaming. The G-POWER SK Plus NG supercharger system pushes the output of the BMW 330i E46 and Z4 3.0i from stock 231 hp to the level of the current 335i E90: 306 hp. Celebrating its 25th anniversary G-POWER is offering 25 unites of the G-POWER SK Plus NG supercharger systems for a special price: 3.320,00 Euro.

Do-it-yourself supercharger system G-POWER SK Plus NG for BMW 330i E46 and Z4 E85

- **306 hp/360 Nm for BMW 330i E46 and Z4 3.0i**
- **Significant output increase of 75 hp and 60 Nm torque**
- **Supercharger coming from the well-known German brand ASA in OEM quality**
- **Installation without irremovable modifications to your car**
- **Easy DIY installation thanks to detailed step-by-step installation manual**

The “NG” in the name of the G-POWER SK Plus NG supercharger system is standing for “next generation” and it indicates that the G-POWER SK Plus supercharger system features a complete reworked ASA T3-12 supercharger from the year 2009 on. Thanks to a redesigned supercharger transmission with improved tooth flanks and a modified shaft sealing, the originally for 0,3 bar rel. boost designed ASA T3-12 supercharger is now capable of 0,4 bar rel.

With the G-POWER supercharger system the 231 hp strong “old” 3.0l 6-cylinder M54 engine achieves the same output figures as the current bi-turbo engine, exactly 306 hp. Accordingly the performance figures improve likewise, so that the older version of the BMW 3 series and Z4 for are actually quicker than the current models due to there better power-to-weight ratio.

The G-POWER SK Plus supercharger system for BMW 330i E46 and Z4 3.0i is delivered with TÜV certification (which makes it street legal in Germany). G-POWER supercharged engines feature the unrestricted everyday practicability of the factory engine, combined with an improved specific consumption and the BMW-typical reliability.

The company G-POWER:

G-POWER was established in 1983 and has ever since exclusively focused on tuning BMW automobiles. In 2008, the brand celebrated its 25-year anniversary and today, it is one of the most renowned providers on the global market. By developing the world-wide strongest versions of the most important BMW engines in-house, G-POWER significantly stands out from its competitors. G-POWER holds various world records and its 750 hp strong BMW M5 Hurricane RS is the fastest limousine in the world.
