

Press Release

Leipzig, 9 February 2015

Public workshop “Shippers meeting” organized by Plinovodi d.o.o.

Transmission System Operator for natural gas in the Republic of Slovenia invites the stakeholder representatives to the workshop to exchange views and experiences using the platform PRISMA and to exchange information on the recent developments in the natural gas market in the Republic of Slovenia.

Public workshop will be held on Friday, 13th February 2015 at 12.30 until 15.00 in Congress centre Four Points by Sheraton Ljubljana Mons (Pot za Brdom 4, 1000 Ljubljana), <http://www.fourpointsljubljanamons.com/>.

We kindly ask you to confirm your participation at the workshop by Wednesday, 11th February 2015 via email: SKR@plinovodi.si.

PRISMA was founded by major European TSOs from Austria, Belgium, Denmark, Germany, France, Italy and the Netherlands with the aim to create a joint European capacity platform.

The European PRISMA Platform, which was launched in April 2013, is the first platform to have implemented the Network Code on Capacity Allocation Mechanisms, the future European market rules for allocating natural gas transport capacity, which will come into force in November 2015.

There are currently 28 European TSOs from Austria, Belgium, Czech Republic, Denmark, France, Germany, Italy, the Netherlands, Portugal, Slovenia and Spain connected to the platform and market transport capacity via PRISMA. 22 TSOs are shareholders of PRISMA.

With its harmonised capacity products and auction mechanisms and its ability to serve a high number of TSO backend systems in accordance with the CAM Network Code, PRISMA is a major step towards an integrated European gas market.
