Gibson-housing from BS Kinetics

Available now for Olympus E 420 and E 520.

The E 420 is the newest accession of Olympus E-systems. It is worldwide the most compact D-SLR and comfortable zoom in with Live View on a 2,7" LCD-monitor. 3,5 pictures per second in 10 megapixel can be taken.

This camera is extremely handy and therefore the perfect companion for the journalist, who needs to be flexible. Tourists with small backpacks or even lady's handbag in which it could be stored easily.

With its 28 user-friendly programs the E 420 is applicable in almost any situation worth a brilliant photo.

The E 520 is the advancement of the E 510 which is assigned with the EISA Award. It owns a assimilated flash stabilizer, which makes for pin sharp pictures independently from objective and without tripod!

The live view task is further optimized and the supersonic wave filter guarantees for crystal-clear photos by most effective dust protection. Self-evident the lenses are exchangeable.

For the different lenses BS Kinetics GmbH offers the suitable port with bayonet. Additionally there is a portadapter to adapt different Olympus-ports at the housing. So, already existing ports can be used further on.

Like all BS Kinetics housings this one is composed of carbon fibre and is so particularly lightweight and ideal to be transported by airplane.
