

SUSPENSION WORKSHOP

WUNDERLICH SUSPENSION-CENTRE

Wunderlich has significantly extended the capacity of its in-house service centre as part of the planning and implementation for its new corporate headquarters. Alongside the long-established installation service, which gives customers the opportunity to have components installed in their own BMW by an expert, the Wunderlich Suspension Centre was also created.

COMPETENCE CENTRE: WUNDERLICH SUSPENSION-CENTRE

The BMW specialists offer high-quality suspension components for BMW motorcycles under the Wunderlich Suspension brand. The sophisticated online suspension configurator lets you put together perfectly fitted suspension components. In the process, all of the necessary parameters and requirements e.g. raising or lowering, adjustment and weight will be requested and the result is premium suspension components that are perfectly tailored to your personal requirements.

If you don't want to install the high-quality, fitted components yourself or if the coupling has to be carried out with electronic suspension, the Wunderlich Suspension Centre is available and ready to help.

It's about the suspension here and the components in the Wunderlich Suspension range. This isn't limited to a simple suspension check, they offer a comprehensive analysis of the suspension by certified experts who also take your own riding behaviour into consideration. The completely professional visual and function inspection of the motorcycle primarily serves to determine whether the suspension components are simply out of alignment or worn, or whether the suspension needs servicing. As the end result of the overall analysis, the customer receives an individual recommendation for solutions. This could be a recommendation to adjust the suspension components, a recommended service or a recommendation to equip the suspension with Wunderlich Suspension components.

INTEGRATED: WILBERS SUPPORT POINT (MULTI-BRAND)

Wunderlich has been a Wilbers support point since 2015. So it made sense now to integrate this support into Wunderlich's in-house suspension centre. The Wunderlich Suspension Centre thus also offers matching suspensions and suspension analysis to cover multiple brands for Wilbers suspensions for Ducati, Honda, Yamaha, Kawasaki, Suzuki, Triumph, and many other brands.

At the Wunderlich Suspension Centre ...

... it's all about the suspension.

EDITION 35

EDITION 35 WUNDERLICH SERVICE-SPECIAL

As part of the launch of the suspension centre, Wunderlich is offering an extensive, diverse and convenient service as part of Edition35 from the beginning of January 2020 until the 29th February 2020. Including an attractive pick up and return service.
