# HANSA FLEX

# HANSA/FLEX

Hydraulics from a single source

## Products

### Hydraulic hose lines

Hose lines in all nominal widths and for every application

### Hydraulic pipes

Precision pipes acc. to DIN 2391, available in all variations

### Metal and PTFE hoses

Special hose lines for solid, liquid and gaseous media

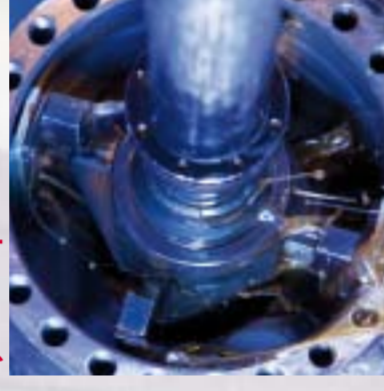

### Bellows and compensators

Comprehensive warehouse programme

## Services

### Cylinder repair

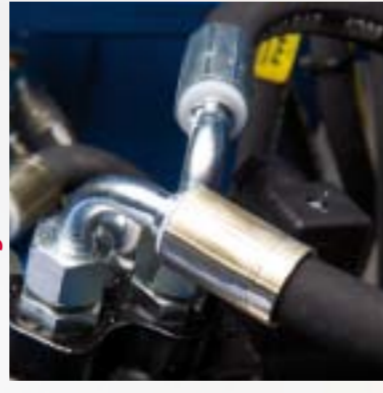

Fast repair of all cylinder types and components

### Sealing technology: immediate help

Seals and special turned parts manufactured to tight deadlines

### Hose fittings

Comprehensive range of fittings kept in stock, special designs available at short notice

### Couplings

Immediately available on the spot: couplings for every application

### Engineering / Unit manufacture

From engineering to production in minimum time

### FLEXPRESS

Fast, comprehensive hydraulics service – day and night.

### Adapters

Large selection of adapters for optimum flow conditions

### Screw fittings

Stocked in a wide range of dimensions and shapes; available in steel and stainless steel

### High-pressure flanges

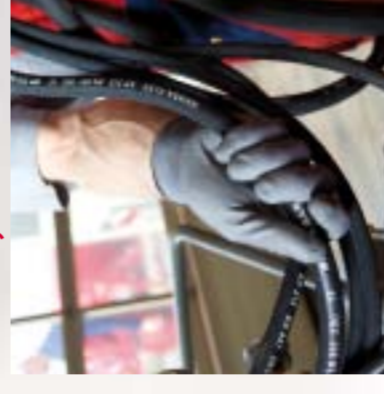

Many different models available

### Hydraulics workshop

Mobile workshop containers for extreme applications

### Industrial hydraulics installation

HANSA-FLEX fitting teams can carry out all work involving hydraulics

### Seals

Over 8,000 different sealing systems kept in stock, special designs available at short notice

### Hydraulic cylinders

Standard programme with numerous variations, special designs available at short notice

### Hydraulic components

Over 4,500 different components immediately available, including 700-bar components

### X-CODE Service

Spare parts business revolutionised by X-CODE: [www.x-code.info](http://www.x-code.info)

### Cleaning

Free of grease and silicone: special fast cleaning

### Pipe clamps

Available materials: polypropylene, polyamide, solid rubber and aluminium

### Measuring systems

Extensive selection of measuring systems for fluid technology

### Friction bearings

Extensive selection for a variety of applications; special designs possible

### Fluid-Service

Expert advice and oil maintenance; supply of filter systems and elements

### Training

Seminars on fluid technology: at HANSA-FLEX's training centres or customer's own premises

### Offshore hoses

Certified quality for maritime applications

### Industrial hoses

Hoses, nipples and couplings for industrial applications available at numerous branches

### Moulded hoses

Numerous standard formats in stock, special designs for all geometries

Certified according to DIN EN ISO 9001:2000
