

**Press Release # 01/2014 – For immediate release**

## **New BSS offerings enable product innovation in telecom**

*Orga Systems to announce launch of extended portfolio at Mobile World Congress 2014*

**Paderborn (Germany), 15 January 2014: “Creating what’s next” is the motto of the upcoming Mobile World Congress in Barcelona. Whatever is coming next will likely be born here – either announced on stage, showcased in the exhibition, or conceived during the meetings. From 24 – 27 February 2014 Orga Systems, a leading software vendor for real-time charging and billing solutions, with an international customer base in the telecommunications, utilities and machine-to-machine markets, will present and demo its new real-time revenue management portfolio complemented with additional innovative BSS functionality.**

### **Faster time to market with a unified BSS**

The new portfolio will be officially launched at Mobile World Congress 2014. It is designed to enhance Communication Service Providers’ capabilities to monetize new LTE and digital services and to take advantage of multi-play and smart bundling opportunities. The new product portfolio is built around the Orga Systems GOLD product family and will provide more comprehensive support for a unified BSS to overcome service providers’ challenges related to legacy CRM, provisioning and billing silos.

### **New product demo to be showcased in Hall 5, Booth 5A41**

Over the course of four days, Mobile World Capital Barcelona expects more than 70.000 attendees from 200 countries, who will be treated to a wealth of learning and networking opportunities, product showcases and announcements, inspiration and innovation. Communication Service Providers can visit Orga Systems in Hall 5, main aisle, Booth 5A41 to see its new product demo and learn more about how the extended product portfolio can help them to meet challenges in a disruptive market and seize new opportunities presented by the digital world.
