SECUDE Global Consulting – new consulting partner

Summary: Close co-operation with SAP specialist from Walldorf, especially in the fields of security and risk management

Walldorf, Germany - 25. September 2008 - SECUDE Global Consulting, a company specialized in SAP business applications – is the new consulting partner of the itCampus group. The partner contract was signed on 24 September 2008 on the occasion of the annual congress of the German-speaking SAP user group e. V. (DSAG) at the Congress Center in Leipzig by Andreas Lassmann (CEO itCampus) and Mario Linkies (CEO SECUDE Global Consulting).

Consulting services and solutions with regard to enterprise risk management and supported by the ELSBETH product family of itCampus are at the center of the partnership. ELSBETH is a highly integrated communication system that completely covers the requirements of modern telecommunication. Due to its multichannel approach it is suitable for everything from the simple extension telephone system, to alarm management solutions, and up to highly complex communication systems especially for call and contact centers.

Furthermore, SECUDE Global Consulting will actively support the launch of the new test software **web2test** in the SAP environment. The web2test solution affords the fully automated execution of comprehensive system tests of complex websites, portals and web-based applications –platform and browser independent. Moreover, web2test provides a business continuity strategy for complex SAP scenarios.

Andreas Lassmann, CEO itCampus group says "SECUDE Global Consulting is a strong and adept partner with whom we can operate successfully in the range of quality and risk management. I am looking forward to the co-operation of our companies."

Mario Linkies, CEO SECUDE Global Consulting says "The quality and application range of itCampus technologies are an important factor for future oriented solutions in the enterprise risk management. The focus is on communications and security control solutions for SAP customers that are of importance for a variety of industries."

About itCampus:

itCampus is an innovative software development company closely cooperating with international scientists and researchers. Founded in 1999 in the cities of Halle and Leipzig in Germany, the company today has offices in Germany, the UK, Switzerland, Italy, Austria and Slovakia. itCampus provides communication solutions, IT consultancy services and custom solutions in the fields of software development and software ergonomics. The intelligent IT and telecommunication solutions of the ELSBETH brand have boosted the company's reputation. They are used in call and contact centers and companies with a high communication level.
