

Press release

Dortmund, 18. June 2008

triomis already, where the German national soccer team would like: Microsoft nominates triomis as finalist for Microsoft Partner 2008 Award in the category Information Worker Solutions, Office Smart Client development

Today, triomis announced it has been selected as a finalist for the Microsoft Partner of the Year award in Information Worker Solutions, Office Solutions Development.

Contrary to earlier years, Microsoft already announced the winners before the world-wide Partner Conference, which takes place in this year from 7th of July to 10th of July in Houston (USA). As in the previous year triomis lost only in the final. In this year the Award went to Korea.

„We are proud to have reached again the final“ explains Stephan Thurek, founder and managing director of triomis GmbH. " After the Award as Partners of the Year 2006 by Microsoft Germany that is the third Award nomination in the last three years. In any case we became that, which our national soccer team would like to still become: European champion! We hope that our kickers achieve their goal.“

Awards will be presented in a number of categories, with winners chosen from a pool of more than 2,000 entrants worldwide. The Information Worker Solutions, Office Solutions Development Partner of the Year award recognizes exceptional partners that have excelled in offering breakthrough Microsoft Office system solutions. Partner's development of Office Open XML-based, Web services-based, or Microsoft Visual Studio 2005 Tools for the 2007 Microsoft Office system-based technology and marketing offerings have helped customers connect people, applications, and partners while delivering excellent total cost of ownership. The winning partner's innovative thinking has helped to solve a technical challenge or helped to address its customers' business needs and empower their people, and has had a unique and positive impact on customers' business pain points.

“Partners are critical to delivering rich business solutions and innovative excellence to customers,” said Allison Watson, Corporate Vice President, Worldwide Partner Group, Microsoft. “Congratulations to the 2008 Partner Award winners who have each demonstrated innovation beyond measure and an unswerving commitment to delivering the highest levels of customer satisfaction. We look forward to these partners continuing to raise the bar in the design and deployment of customer solutions built on Microsoft technologies.”

triomis is partner for innovative information technology. As a specialist for the realization of software solutions based on Microsoft technologies triomis has competencies within Business Intelligence, Collaboration and Knowledge management, development of Web Applications, portal development, Integration of business applications and custom software development.

triomis was founded 1992 by Stephan, Andreas and Sabine Thurek. Since 1992 use prominent banks, insurance, media concerns and trading companies solutions of triomis.

The Microsoft Partner Program Awards recognize Microsoft partners that have developed and delivered exceptional Microsoft-based solutions over the past year.
