

GREAT VIEWS!

Wunderlich's »MARATHON« windshield follows the principle of „form follows function“ - which, of course, also applies to the new BMW F 900 XR.

Let's go the whole hog! This is also a guiding principle that can be confidently attributed to the developers of the BMW accessories specialist Wunderlich. Obviously, they have now also applied these two proven principles to the »MARATHON« windshield of the new BMW F 900 XR.

The result is a convincing and proven windshield that leaves nothing to be desired in terms of ergonomics, protective function, functionality, precision, materiality and design. The streamlined silhouette, coupled with solid mechanical stability, ensures a pleasant laminar air flow and maximum wind and weather protection. The contours, whose aerodynamics are meticulously calculated and only receive their final fine tuning in extensive road tests, have a high recognition value, but without imposing themselves. A windshield that does not take away the character of the BMW F 900 XR, but underlines it with its integrated shape. And this despite the fact that it is considerably more generously dimensioned than the original windshield!

The typical Wunderlich high-quality workmanship and experience is easy to recognize when you look through it: A clear view, without distorting optical flaws that irritate. Another trademark: the hand-polished edges of the windshield, which make separate edge protection superfluous, as well as the simple assembly, to which Wunderlich attaches great importance with all components. These product features apply to both windshield variants, the transparent and the smoked grey ones.

In other words, properties that stand for relaxed driving and pronounced long-distance comfort and thus - completely incidentally - increase passive safety. The windshield offers optimum relief from wind pressure for the head, upper body and shoulders, as well as a noticeable reduction in turbulence, and therefore plays out its full potential on long and short distances and in all seasons.

The »MARATHON« windshield is simply fitted to the standard height adjustment system of the BMW F 900 XR, which can be operated in the usual way.

On top of that, Wunderlich gives a 5-year warranty on the valuable product, whose price is 175.36 €*.

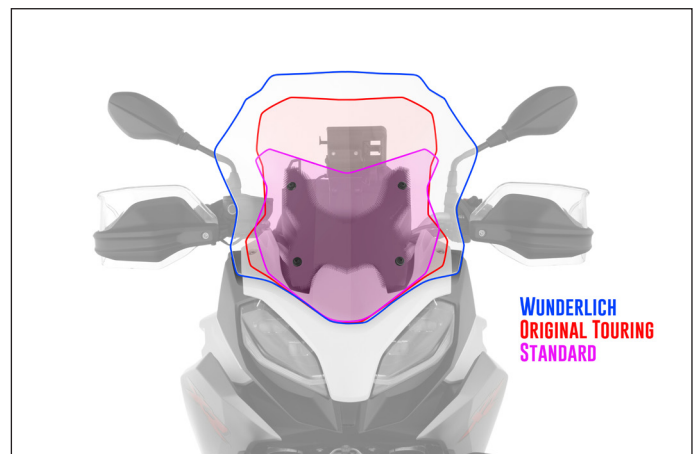

Wunderlich offers its proven »MARATHON« windshield, always designed specifically for each model, for almost all current and many older BMW model series.

Relaxed driving: Effective wind and weather protection with distinctive, ergonomic long-distance comfort

Optimally relieves wind pressure for head, upper body and shoulders and noticeably reduces turbulences

Generously dimensioned: With its integrated design, the »MARATHON« windshield underlines the character of the BMW F 900 XR
