

## **CLOUDBEES APPOINTS INDUSTRY VETERAN DANIEL MCLAUGHLIN AS CHIEF FINANCIAL AND OPERATIONS OFFICER**

**SAN JOSE, CA. – May 24, 2016** – [CloudBees, Inc.](#), the hub of enterprise Jenkins and DevOps, today announced the appointment of Daniel McLaughlin as Chief Financial and Operations Officer. McLaughlin has more than 25 years of experience in financial leadership for financial technology organizations including Broadridge and SunGard. Prior to joining CloudBees, McLaughlin was CFO for Fiserv Investment Services, a provider of technology solutions to the financial services market.

In the CFOO role at CloudBees, McLaughlin will be responsible for extending operational excellence across the company, as CloudBees scales to a new level of growth. McLaughlin's extensive experience building high-performance teams across an organization will provide the operational guidance needed in CloudBees' evolution as an enterprise software company.

McLaughlin has proven his ability to lead global organizations in achieving success through revenue expansion and higher margins, making him a valuable addition to the CloudBees management team at a time of rapid growth. During his tenure at Fiserv, McLaughlin played a pivotal role in driving change, producing sustainable recurring revenue growth and increasing margins. Additionally, at Broadridge, McLaughlin led the spin-off of ADP Brokerage Services.

"CloudBees has seen remarkable success as a company and we are now ready to take the next big leap in growth. Dan's skillset aligns with the vision and strategy needed to infuse operational excellence throughout CloudBees," said Sacha Labourey, CEO and co-founder of CloudBees. "He brings broad experience working with technology and software companies to accelerate revenue growth and position them for successful, long-term growth."

"CloudBees is part of a small group of disruptive companies that is transforming the way software is delivered," said McLaughlin. "Unlike some of the others, CloudBees has been able to successfully monetize adoption of enterprise Jenkins solutions. I look forward to the opportunity to drive CloudBees to the next level."

### **About CloudBees**

CloudBees is the hub of enterprise Jenkins and DevOps, providing companies with smarter solutions for automating software development and delivery. CloudBees starts with Jenkins, the most trusted and widely-adopted continuous delivery platform, and adds enterprise-grade security, scalability, manageability and expert-level support. By making the software delivery process more productive, manageable and hassle-free, CloudBees puts companies on the fastest path to transforming great ideas into great software and returning value to the business more quickly.

Backed by Matrix Partners, Lightspeed Venture Partners and Verizon Ventures, CloudBees was founded in 2010 by former JBoss CTO Sacha Labourey and an elite team of continuous integration, continuous delivery and DevOps professionals.
