

# EuroPLX 76 Noordwijk Marketplace for Pharma Business Opportunities

The new **Marketplace for Pharma Business Opportunities** is attended by top business development executives of drug developing, producing or marketing companies from all over the world. Each Marketplace is an online exchange for pharma business opportunities and a platform to arrange either real (in-person) or virtual (video) business meetings, or both. A two-days one-on-one meetings event in Noordwijk is embedded in two video meeting weeks before and two weeks after the on-site event.

The new format allows registrants to hold pre-event video meetings with other company representatives in order to clarify whether or not a personal, on-site meeting makes sense. It also allows to efficiently prepare for a personal on-site meeting and to clear up pertinent questions beforehand. The post-event video meetings period allows for follow-up meetings or additional, stand-alone meetings.

Two Weeks Pre-event Video Meetings: 31 May + 13 June 2021

Two Days Face-to-Face Meetings Event: 14 + 15 June 2021

Two Weeks Post-event Video Meetings: 16 + 29 June 2021

The number of business meetings is limited only by the participants' availabilities and agendas, a new feature accounting for an unprecedented cost-benefit ratio.

The business opportunities scope ranges from prescription to OTC drugs, companion diagnostics, nutraceuticals, and medical devices: development, licensing, marketing, promotion, and distribution. Companies may also offer or look for R&D services, supporting technologies (e.g. new drug delivery), contract manufacture, and the supply of APIs and intermediates.
