

Press release by MPDV

MPDV gives outlook on the SPS Smart Factory meets Smart Logistics

Mosbach, October 22th, 2019 – Manufacturing companies need innovative applications and IT tools for their way to the Smart Factory. As part of SPS 2019, MPDV will present a wide range of IT solutions for the Smart Factory.

In addition to the field-tested Manufacturing Execution System (MES) HYDRA, interested visitors to the SPS can also experience the innovative Manufacturing Integration Platform (MIP) live at the MPDV stand. Another trade fair highlight is an Industry 4.0 lighthouse project from VACOM, a leading European supplier of vacuum technology based near Jena. Here, the Warehouse Management System (WMS) viadat from viastore and the MES HYDRA from MPDV are working hand in hand. The vision of the Smart Factory becomes reality.

MPDV experts will be talking to manufacturing companies from all sectors directly at the SPS (booth 5-258) to find out which methods and products are the right ones on their way to the Smart Factory. Take the opportunity to get to know MPDV at the forum lecture "Your way to Smart Factory - Efficient production with innovative manufacturing IT" on 27.11.2019 at 9:20 a.m. in Forum hall 10.1.

Smart Production Solutions

With its new name "Smart Production Solutions", SPS 2019 (26.-28.11.2019) is dedicating itself to what the modern factory needs in order to remain competitive – and MPDV is showing concrete applications in this respect. All trade fair highlights and the opportunity to make an appointment can be found at <http://mpdv.info/prsps2019>

About MPDV

MPDV, headquartered in Mosbach/Germany, is the market leader for IT solutions in the manufacturing sector. With more than 40 years of project experience in the manufacturing environment, MPDV has extensive expertise and supports companies of all sizes on their way to the Smart Factory. Products such as MPDV's Manufacturing Execution System (MES) HYDRA or the Manufacturing Integration Platform (MIP) enable manufacturing companies to streamline their production processes and stay one step ahead of the competition. The systems can be used to collect and evaluate production-related data along the entire value chain in real time. If the production process is delayed, employees detect it immediately and can initiate targeted measures. More than 800,000 people in over 1,250 manufacturing companies worldwide use MPDV's innovative software solutions every day. This includes well-known companies from all sectors. MPDV employs around 480 people at thirteen locations in China, Germany, Luxembourg, Malaysia, Singapore, Switzerland, and the USA. Further information: www.mpdv.com.
