## Press Release

### That's Mobility

#### Inspecting Connectors and Couplers with the P5000i Video Microscope

LASER COMPONENTS offers JDSU's video microscope P5000i. The device has more connection options than ever before - it is even possible to connect it to your mobile phone!

The P5000i has more advantages: Installed connectors can be checked without having to disassemble them first. There are more than 200 different connector and coupling adapters available.

With the documented images according to IEC 61300-3-35, the actual condition can be recorded to determine liability in case of damage.

### The Company

LASER COMPONENTS specializes in the development, manufacture, and sale of components and services in the laser and optoelectronics industry. At LASER COMPONENTS, we have been serving customers since 1982 with sales branches in four different countries. We have been producing in house since 1986 with production facilities in Germany, Canada, and the USA. In-house production makes up approximately half of our sales revenue. A family-run business, we have more than 170 employees worldwide.
