-TECHART Power Kit TA 058/SD2 for Porsche Cayenne S Diesel-

Leonberg, February 2014 – 1,000 Nm for the Porsche Cayenne S Diesel. TECHART Automobildesign extends its range of power kits for the Porsche Cayenne S Diesel. By reprogramming the standard engine management control unit the new TECHART Power Kit TA 058/SD2 achieves an overall power output of 460 hp and 1,000 Nm for the Porsche Cayenne S Diesel.

Performance.

In order to follow its ambition to offer integrated individualization programs for Porsche models, TECHART adds another version to its existing power kit program for the Porsche Cayenne S Diesel. Beside the TECHART Power Kit TA 058/SD1, which is based on the intelligent TECHART engine management system TECHTRONIC, customers are also able to choose the new TECHART Power Kit TA 058/SD2. It operates by reprogramming the standard engine management control unit and provides additional 58 kW / 78 hp and 150 Nm for the Porsche Cayenne S Diesel. The vehicle operates with this power enhancement permanently and in all driving conditions. Thus the 4.2l V8 Diesel engine generates a total power output of 339 kW / 460 hp at 3,500 – 3,900 1/min and 1,000 Nm at 2,200 – 2,900 1/min. This results in a faster acceleration of 4.9s from 0 to 100 Km/h (standard model 5.7s), and in higher top speed of 265 km/h (standard model 252 km/h).

A TECHART Engine Styling Package in carbon fibre is also available for the Porsche Cayenne S Diesel. The TECHART Exhaust System Sport with dual oval tube TECHART Sport Tailpipes in stainless steel with embossed TECHART logotype lends the Porsche Cayenne S Diesel visual and acoustic expression.

-TECHART Power Kit TA 058/SD2 for Porsche Cayenne S Diesel-

Technical data TECHART Power Kit TA 058/SD1 based on TECHART TECHTRONIC for Porsche Cayenne S Diesel (from model year 2013)

Performance data TA 058/SD1

Power increase 28 kW / 38 hp / 100 Nm

based on V8 4.2l, 281 kW / 382 hp / 850 Nm

Total power output

309 kW / 420 hp at 3,800 1/min

950 Nm at 2,600 1/min

Driving performance

0-100 Km/h in 5.2s (standard model 5.7s)

Top speed 256 km/h (standard model 252 km/h)

TECHART Engine Management System TECHTRONIC characteristics

- significant increase of performance and driving dynamics
- activation by pushing the Sport button at centre console
- quick and easy installation, trouble-free deinstallation at any time
- intelligent electronic power management
- highest material quality and fulfilment of OEM specifications
- does not affect vehicle diagnostics or servicing
- does not affect electronic engine protection features

Like every factory-new TECHART product, the high quality standards of the TECHART Power Kits are backed by a two-year limited warranty. But more than that, TECHART grants an additional warranty on damages at engine or gearbox according to TECHART TECHTRONIC Warranty Terms.

Company profile

TECHART Automobildesign GmbH, with its headquarters in the Swabian town of Leonberg, is setting global standards when it comes to the customisation of vehicles from the Porsche brand. Founded in 1987, TECHART has been living this passion for over 25 years under the leadership of the two managing directors Thomas Behringer and Matthias Krauß. The consistent implementation of their ideas and targets has seen the company develop into a global business with over 70 employees and sales in over 30 countries. From aerodynamics and exterior designs, to technical optimisations in all vehicle sectors, to the refinement of interiors by the company's own upholstery shop, the TECHART range covers all Porsche series and models. Approved as an internationally registered vehicle manufacturer, TECHART has established itself as a premium brand for the refinement of Porsche cars worldwide.
