

The IT Workbench GmbH Germany was founded in 2003 and represents a software and consultant company for the German-speaking insurance market.

Together with our partner organisation IT Workbench LLC in Kiev we are able to provide high-quality, pragmatic and sustainable solutions within a flexible cost model to our customers in Germany.

We accompany our customers during the entire lifecycle of their information systems: From the analysis through development and production up to migration to the next generation of contract administration systems.

Our company is growing and we are looking for permanent employees to support our team in Kiev on a long-term basis.
